Summary

Technical Audit Consultant at PwC with 2+ years' experience in ITGC and controls testing, supporting global banking clients including MUFG Bank. Skilled in assessing IT control environments, SOX compliance, and automation of audit processes using Agentic AI solutions. Demonstrated ability to collaborate cross-functionally, document audit evidence, and drive operational efficiencies.

Experience

Associate 2 – Technical Auditor

Feb. 2024 – Present

PwC - PricewaterhouseCoopers Intl. Ltd.

- Led ITGC and application control testing across key financial systems, coordinating time-sensitive RFIs and walkthroughs to ensure SOX and regulatory compliance consistently.
- Assessed design and operating effectiveness of critical technical controls, including network security, user access management, change management, backup and recovery procedures, and SDLC practices.
- Built custom GPT and Agentic AI solution for control testing, streamlining controls vetting, improving accuracy and team productivity measurably.
- Coordinated audit activities with global stakeholders and control owners, conducted control walkthroughs, and maintained detailed audit documentation in line with PwC and industry standards.

Microservices Developer Intern

May 2023 – Aug. 2023

Insignia Consultancy Services

- Developed Spring Boot microservices for subscription management (CRUD) with comprehensive input validation and transaction rollback to ensure data consistency.
- Implemented robust RESTful APIs with role-based access controls to ensure data security.

Education

Graphic Era Hill University, Dehradun

Sep. 2020 – Jun. 2024

B.Tech. in Computer Science & Engineering (8.25/10)

Maria Assumpta Sr. Sec. Convent School, Kashipur

Mar. 2019 – Apr. 2020

Senior Secondary Education - XII (85%)

Skills

- **Controls & Compliance:** ITGC/ITAC, SOX Compliance, COBIT, COSO, NIST, ISO
- Audit & Analytics Tools:** MS360, ServiceNow, Archer, CheckPoint Console, SQL, Python
- Agentic AI:** RAG Implementation, Custom GPT, Co-Pilot, AWS SageMaker
- Soft Skills:** Communication, Leadership, Quality Assurance, Ownership, Collaboration, Tech Enablement

Projects

Mean Reversion Trading Strategy and Indicator (Python, Quantitative Analysis)

Jan. 2024

- Developed Python algorithm using linear regression to detect profitable trades in volatile markets.
- Back-tested strategy on historical data, achieving consistent returns through effective risk controls.

Cloud-Based Student Information Chatbot System (AWS Lambda, MongoDB, Slack API)

Oct. 2023

- Built Slack ChatBot integrated with AWS Lambda enabling CRUD operations via natural-language queries.
- Designed MongoDB tables and API Gateway for scalable, efficient, serverless data management solutions.

Publications

Quantitative Insights into Breakout and Reversal Trading Strategies, *IEEE*

Mar. 2024

Published research at International Conference presenting a breakout and reversal trading strategy using quantitative analysis of candlestick-close and RSI divergences, validated through back-testing and risk management. IEEE Xplore

Achievements & Certifications

- Certified AWS Cloud Practitioner; studying for CIA Certification.
- Awarded PwC Extra Miler Award for exemplary performance in IT audit and Agentic AI development initiatives.
- Mentored interns at PwC, enhancing quality and productivity in ITGC testing tasks.
