Summary

Technical Consultant at PwC with 2+ years of experience supporting global banking clients through client-facing IT risk assessments and control validations across server, network, and Active Directory environments. Strong foundation in IT processes (access, change, incident, backup, monitoring) and clear technical documentation for stakeholders. Developed Agentic AI solutions to improve operational efficiency, accuracy, and audit readiness ; Open to Relocation and travel across the Middle East and Africa.

Experience

Associate 2

Feb. 2024 – Present

PwC - PricewaterhouseCoopers Intl. Ltd.

- Led client-facing IT risk and control assessments across key enterprise systems, aligning evidence to SOX requirements and strengthening technology governance for audit readiness.
- Built Agentic AI solutions to automate and cut manual documentation & review time, improving accuracy & quality.
- Evaluated operating effectiveness of controls across server/network infrastructure, Active Directory access, change management, backups, monitoring practices, and SDLC-aligned processes for regulated environments.
- Coordinated walkthroughs with global control owners, translated technical findings into actionable documentation, and maintained detailed workpapers aligned with PwC standards and client expectations.

Microservices Developer Intern

May 2023 – Aug. 2023

Insignia Consultancy Services

- Developed Spring Boot microservices for subscription management (CRUD), with strong validation, exception handling, and transaction rollback to maintain application reliability.
- Implemented REST APIs with role-based access control and secure endpoints, supporting integration-ready services.

Education

Graphic Era Hill University, Dehradun

Sep. 2020 – Jun. 2024

B.Tech. in Computer Science & Engineering (8.25/10)

Maria Assumpta Sr. Sec. Convent School, Kashipur

Mar. 2019 – Apr. 2020

Senior Secondary Education - XII (85%)
